

AIDS INSTRUCTION

The District will provide age appropriate classroom instruction in compliance with the regulations of the Commissioner of Education, for all students K-12 concerning Acquired Immune Deficiency Syndrome (AIDS). Instruction will be provided as part of the sequential and comprehensive health program and shall include the following information:

1. the nature of the disease;
2. methods of transmission of the disease; ~~and~~
3. methods of prevention of the disease stressing abstinence as the most effective and appropriate protection against AIDS; and
4. age appropriateness and consistency with community values

The District will observe all laws regarding prior parent notification and such prior notification shall include a brief description of topics to be covered.

A student shall be excused from that segment of AIDS instruction regarding methods of prevention of the disease if the student's parent/guardian files a written request with the Building Principal. The request must give assurance that such instruction will be given at home.

The Board shall establish an advisory council which shall be responsible for making recommendations on content, implementation, and evaluation of the AIDS instructional program. The advisory council must consist of Board members, appropriate school personnel, parents and community representatives, including representatives from religious organizations.

The Board of Education shall be responsible for determining the content of the District's AIDS curriculum, approving its implementation and evaluating the AIDS instructional program. In addition, the Board will ensure appropriate training and curriculum materials are provided for the instructional staff providing AIDS instruction and to parents who request such materials.
