

## COMPENSATION AND BENEFITS

The Superintendent of Schools or designee shall be responsible for establishing and administering the compensation and benefits provided to the District's employees.

The Board and the District will comply with all applicable federal and state laws that require minimum compensation and benefits be provided to employees.

### Employees Covered by Collective Bargaining Agreements

The compensation and benefits for employees who are represented by recognized or certified employee organizations are established by collective bargaining agreements negotiated between the employee organizations and the District. The District will negotiate in good faith over these issues, as required by law, and will fully comply with the requirements of the Taylor Law and the collective bargaining agreements it enters into with its employees.

To ensure that the compensation and benefits provided to employees are fair and within the parameters of the District budget, the Board reserves its right to approve all additional funding required by the provisions of a tentative collective bargaining agreement, in addition to any right of ratification that is secured by the District's negotiation representative(s).

### Employees Not Covered by Collective Bargaining Agreements

The compensation and benefits for employees who are not represented by recognized or certified employee organizations shall be determined by the Superintendent, with approval by the Board.
